

# Logo Designs

This Designs were made for at my work for LogDynamics.

In the intricate global logistics landscape, effective collaboration between research and industry, interdisciplinary approaches, and innovative technology adoption are essential. The Bremen Research Cluster for Dynamics in Logistics addresses these needs by bridging foundational and practical research, facilitating knowledge transfer, and fostering education at the juncture of academia and industry.

The website is here: <http://logdynamics.de/>

This Logo were made in different ways. Some with thin half circles some with thick.

This one with bigger text in the middle.

The Logo for LogDynamics still not selected. I am still working on it.

This is another Logo which I worked on Adobe InDesign. You can check the link [Aktuelle Mitglieder \(logdynamics.de\)](http://AktuelleMitglieder(logdynamics.de)) The Logo is Uploaded here.

This Designs were made for one of friend who want to make YouTube videos and the name he selected was Lick Spoon. This Design was made using Adobe Illustrator.

This is another way of design for the same client.

This is the one which got selected
